***Claim Rejections - 35 USC § 112***

Examiner has entered Applicants amendment, which obviates Examiners previous rejection, therefore the rejection has been withdrawn.

***Allowable Subject Matter***

Claims 1-9, 11-13 and 15 are allowed.

The following is an examiner's statement of reasons for allowance:

Prior art of record fails to teach or suggest an ethylene polymerization catalyst system supported on a particulate inorganic oxide support comprising at least 50% of the chromium oxide is in a bivalent state due to a reduction between 300 to 500 °C and a zirconium metallocene compound. Prior art of record also fails to teach or suggest Applicant's method of preparation for said catalyst system, which is produced from a process where the reduction of the chromium oxide to the bivalent state is performed at a temperature range between 300 to 500 °C and the reducing agent can be carbon monoxide.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Jennine M. Brown whose telephone number is (571)
